

# Our Latest New Design

**SARCA EXCEL HAS FINALLY ARRIVED!**

This will be the super yacht anchor of the future.

When comparing holding power results from our unique TATS machine, SARCA EXCEL is doubling the holding power of the best anchors the World has to offer, this includes all new generation designs. SARCA EXCEL's distinctive and astounding aesthetics designed in mind to enhance the new generation of super yachts. It will fit all bowsprit and internal bull-pit anchor housing arrangements. EXCEL has many attributes of the SUPER SARCA giving it unrivaled ability to perform in many types of ocean floor substrate.

- **Tangle resistant**
- **Low centre of gravity self rights and keeps the toe hunting continuously to take advantage of the ocean floor.**
- **Our original revolutionary automatic reset trip release design does not require relocating the D-Shackle to anchor over night as it wont trip.**
- **Full range of anchors have been tested for Super high holding power certification.**
- **Unrivaled Holding Power**

**“LEAVE THE MUD BEHIND WITH PROVEN CONVEX DESIGN”**

Our anchor designs are invented, not copied this means new technology. We have the first and only TATS machine Worldwide which has revolutionized our ability to develop and prove our design before it reaches the end user.
