

Robertson's Lifting and Rigging P/L have tested Anchor Right Australia own anchors in accordance with the National Standard for Commercial Vessels, Part – C, Design and Construction, section 7 Subsection D.

Proof loads were applied to the Super Sarca range of anchors up to 145kg.

Proof loads were applied to the Sarca Excel range of anchors up to 88kg.

All anchors tested were galvanized with the exception of one 88kg 316 Stainless Steel anchor.

At the owners request some of these anchors were proof tested up to four times more than required with no permanent set.

As a result of the combined testing, all anchors mentioned in the above have passed – certified as (Super High Holding Power)
